JACK HARNER

📍 Albuquerque, NM, USA   ✉ Jack@JackHarner.com   🖥 JackHarner.com

Hi! My name is **Jack Harner**! I'm a Full Stack Web Developer based out of Albuquerque, New Mexico. I specialize in developing custom web solutions primarily with WordPress, though these days I'm working with React / Gatsby / Node.

I'm looking for a fast-paced remote position where learning is encouraged, challenges are everchanging, & criticism is constructive. My work thus far has been mainly in the E-Commerce space, but somewhere I can grow as a developer is all that really matters to me.

Skills

Web Design

- HTML
- CSS/SCSS
- JavaScript
